

POW'R FLUSH

POWER STEERING RACK & PINION CLEANER

POW'R FLUSH™ is designed to be used in conjunction with a power steering flush machine. When used as directed, POW'R FLUSH™ cleans and captures contaminants from the system first and then allows them to be flushed out during the professional flush service. This power steering service will increase component life and help prevent premature wear of internal steering components.

Directions:

Drain 12 oz. from pump reservoir. Add bottle of POW'R FLUSH™ to pump reservoir. Run vehicle for 10 minutes. For better cleaning, turn steering wheel side to side to help work product completely into the system. Complete service by exchanging the used fluid with new fluid using a power steering flush machine.

Product Number and Packaging:

#8014 – 12 OZ 24/CASE
