

SMOKE NEUTRALIZER ODOR ELIMINATOR

SMOKE NEUTRALIZER is an odor eliminator specially formulated to eradicate cannabis, tobacco and campfire smoke odors. While other products only temporarily mask smoke odors, SMOKE NEUTRALIZER's proprietary blend of fragrances and odor neutralizers work at the molecular level to permanently eliminate them. Our product sprays an ultra-fine dry mist that lingers in the air and dries rapidly so no wet or oily residue is left behind on fabrics or surfaces. The product is made with non-toxic ingredients and has a pleasant fruity aroma.
